Buy online real Italian wines, appreciated all over the World, to enjoy them during Your events and to impress the ones You love.

Excellent and right priced wine bottles, shipped following careful rules and delivered in a short time to Our Customers.

White Wine - Falanghina Doc

FALANGHINA DOC

This wine is born from the assembling of different grape varieties from the Alto Casertano Area; in this way, the agronomic characteristics of the soil are highlighted and they absolutely boost the flavour of our Falanghina, which turns out structured but fresh and aromatic.

The main feature is the marked acidity, which gives the palate a fresh taste characterized by mineral notes. Straw yellow in colour, the bouquet is fruity and floral with hints of saturn peach, plum and white flowers.

It can be enjoyed alone as aperitif, it's excellent paired with fried fish and vegetables, seafood pasta, grilled fish and shellfish. Delicious paired also with white meat.

Alcohol content: 13.5°
Wine vintage: 2018

Red Wine - Aglianico Doc

AGLIANICO DOC

Elegant and essential, it is a fairly structured, full-bodied and tannic wine, but it's also aromatic.

It isn't a soft wine, even if, with age, its acidity decreases.

The aroma and the flavor are intense and fruity; this wine presents itself with spicy hints of cherry, sour cherry and red fruits and the colour is ruby red.

Lively and well-balanced on the palate, it's slightly tannic.

In addition to the intensity, what distinguishes the Aglianico is its durability: for this reason it shouldn't be drunk "young" but it must be tasted once it has reached the right level of ageing.

We recommend pairing with spicy salami, Caserta roast pork, venison, medium and long aged cheeses, like our Caciocavallo.

Alcohol content: 13.5°
Wine vintage: 2018

GRAN
RISERVA

Red Wine - Aglianico Riserva Doc

AGLIANICO RESERVE DOC

This wine is made from grapes harvested in vineyards located in the area of Galluccio (Campania), along the slopes of the ancient dormant volcano of Roccamonfina.

It's an excellence from the Terra di Lavoro: a lively, fruity and deeply fresh product. It's obtained by the low temperature fermentation of clusters; later the refinement takes place first in stainless steel barrels, then in oak barrels, for medium-long periods. It's a very full-bodied wine, with a slight aftertaste of cherry and spices, red ruby in color, with purple reflections.

At the palate it's harmonious, warm and soft, with well balanced tannis. It's ideal to be tasted pure, but also combined with red meat and aged cheese, like our Pecorino Canestrato.

Alcohol content: 14°
Wine vintage: 2018

Rosé Wine - Rosato Di Roccamonfina Igt

ROSATO DI ROCCAMONFINA IGT

This wine is characterized by its deep pink colour and by its soft, delicate and velvety flavour. It has hints of red fruit, especially "Annurca" apple.

A marked acidity gives this wine a freshness which extends its likability for several months.

Rosato is a wine that goes perfectly with various dishes: main courses, soups, fish dishes. We recommend pairing with our PDO Buffalo Mozzarella or with Pizza Margherita, made with our Pizza dough.

Alcohol content: 12°
Wine vintage: 2018

OUR WINES

WHITE WINES

Lively, fresh and harmonious white wines, born from the processing of typical grapes of Terra di Lavoro (Campania). The varieties from which our white wines are brought to life are, of course, white grapes, mainly green or yellow in colour. Usually they are obtained by fermenting of white grape must, without skin maceration (so-called white vinification, different from the red one, whose process consists in fermentation of grape juice and solid parts together).

They have characteristics which make special every bottle, mixing notes of flowers, fruits and aromatic plants.

Our bottles offer intense burst of aromas and tastes, particularly suitable for seafood.

RED WINES

Red wine is the creative soul of man's oenological knowledge.

Its origin dates back to the mists of time and is strictly related to history and culture of Countries famous for a strong wine vocation, like Italy and France.

We provide our Customers with a fine wine selection from Alto Casertano, Area known to be famous for red wines like Aglianico and PDO Galluccio Rosso.

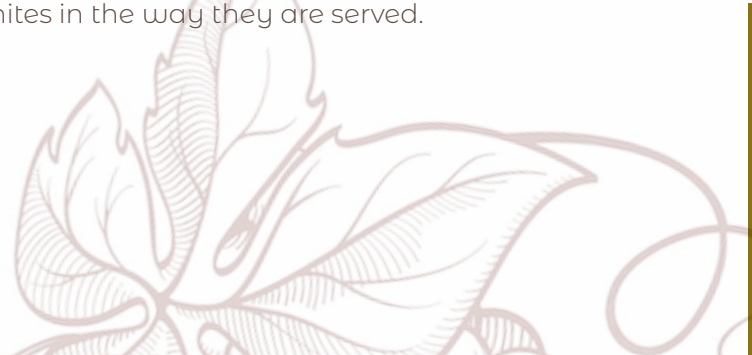

ROSÉ WINES

Rosés are made from red grapes, minimizing the steeping time of skins and seeds; in this way, just a little part of colouring substances and tannis are transferred to the wine.

To start this process are put in place specific winemaking techniques (so-called "rosé vinification"). Rosé wines are really versatile in terms of combinations.

This type of wine can be found in a specific category, under every point of view: from production methods to organoleptic qualities, which make it a sort of "hybrid".

Rosés bring to mind red wines for their colour and whites in the way they are served.
